WHITE BIRD MAKES HISTORY! White Bird had some great changes this past year, resulting in our own Parks and Recreation District - the first in Idaho County. We are all excited with the prospects of what's to come for the White Bird School property. Our community has depended on the school and the Rebekah Hall for many, many years and now we will still be able to have the best of both worlds.

We thank everyone for their support. There's a saying, "If your dreams don't scare you, they are not big enough." We are hoping for big dreams from the community and the Chamber would like to help. Money in our budget has been set aside for a special community project for the town from funds raised by past Tour of Homes & Gardens fundraisers. The new White Bird Park & Recreation District seems the perfect place to put these monies to good use! Accordingly, in 2015, the White Bird Chamber intends to donate \$1,000.00 to help get things started. Want more information? Call 839.2777 or 839.2800
